EDUCATION

Geetanjali Institute of Technical Studies, Udaipur Bachelor's of Computer Science CGPA : 7.9	2022 - Present
Gayatri Public Sr. Sec. School, Rajsamand Higher Secondary Education, 78.20%	2021 - 2022
Secondary Education, 77.83%	2019 - 2020

SKILLS

Frontend: React.js, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js
Database: MongoDB
Programming: C, C++, JavaScript
Tools: Git, GitHub, Vercel
Core Concepts: DBMS, OOP, Data Structures & Algorithms, Problem Solving

INTERNSHIP

Front-End Development Intern | IBM | July 2024

- Developed responsive UI components using HTML, CSS, and JavaScript, applying modern front-end design principles.
- Worked on real-world layout implementations and improved understanding of component-based development.
- Strengthened core front-end fundamentals including DOM manipulation, responsiveness, and user experience optimization.

PROJECTS

PassMan | React, Nodejs, Expressjs, MongoDB → [Live](#) | [Github](#)

- Developed a full-stack password manager with secure authentication and user-specific credential storage.
- Designed a password reset workflow using token generation, hashing, and expiry-based validation with email integration.
- Built scalable RESTful APIs for CRUD operations on credentials with proper backend validation.
- Applied security practices including Bcrypt hashing and prevention of user enumeration attacks.

FoodFest | React, JavaScript, Tailwind CSS | [Live](#) | [Github](#)

- Built a responsive restaurant web application using component-based architecture and client-side routing for seamless navigation.
- Designed mobile-first UI with reusable components to enhance user experience and maintainability.
- Optimized front-end performance for faster load times and smooth interactions.

Youtube Data Filtration | Python, Pandas, NumPy, Matplotlib | [Github](#)

- Processed and cleaned large-scale YouTube datasets using Pandas and NumPy for structured analysis.
- Created visualizations using Matplotlib and Seaborn to identify trends across categories and performance metrics.
- Transformed raw data into actionable insights to support data-driven understanding.
